

Summer Internships in Cleveland

Co-Sponsored by PANO and Princeton University

For many years the Princeton Association of Northern Ohio (PANO) has sponsored paid summer internships at select non-profit organizations in Northeast Ohio. In 2026, in collaboration with the Pace Center at Princeton University, the offerings were expanded to include five local community partners: Global Cleveland, Legal Works, The City Club of Cleveland, Greater Cleveland Food Bank, and University Circle, Inc. For 2027, PANO will be expanding the number and type of summer opportunities available not only for Princeton students from the Greater Cleveland area but also for Princeton undergraduates from all over the country. Cleveland is a city on the rise with tremendous economic, educational, and cultural resources, and PANO wants Princetonians to come and experience the city, do good things, and, perhaps, eventually, settle here. By encouraging Princeton summer internships in Northeast Ohio, PANO hopes to make progress towards that goal.

2026 Community Partners

Global Cleveland • Legal Works • The City Club of Cleveland • Greater Cleveland Food Bank • University Circle, Inc.

Applying for 2027

In the fall, applications will be available from the Pace Center at Princeton for 2027 summer positions through either the Princeton in Community Service Fellowship (PICS) or Recognizing Inequities and Standing for Equality Fellowship (RISE) Programs. The PICS and RISE programs have different foci, but both offer a tremendous opportunity not only to grow as a person and gain valuable career experience but also to fulfill the mission of Princeton in the service of the nation and the world.

Spread the Word

It would be wonderful to have a group of hometown PACE summer interns returning to Cleveland in 2027 and performing community service. Furthermore, Princeton undergraduates from other areas of the country are welcome and encouraged to experience Cleveland and all that Northeast Ohio has to offer — local Princetonians should “spread the word.” All the ingredients are in Greater Cleveland to have a productive, worthwhile, and enjoyable summer.
